What is this product?

Type

The product is a UCITS fund

Term

The fund has no maturity date. The management company has the right to terminate the management of the fund. More information can be found in the fund's prospectus.

Objectives

Investment objective The fund aims to replicate the performance and risk profile of its benchmark index.

Investment policies The fund is passively managed and invests primarily in stocks in the European market.

The fund's benchmark index is a reinvesting equity index comprised of large and mid-sized companies in the developed European market, excluding companies that do not meet the fund company's sustainability policy.

The return is determined by how much the fund's holdings increase or decrease in value during your holding period.

The fund promotes sustainability characteristics and is therefore classified as Article 8 according to the EU Sustainable Finance Disclosure Regulation (SFDR). The fund follows the management company's sustainability policy, which is available at www.sebgroup.com/funds.

Share Class Benchmark MSCI Europe ex Client Defined Securities Index, an MSCI custom index based on the stock exclusions defined by SEB

Subscription and Redemption You can normally buy and sell units in the fund every Swedish bank business day.

Minimum initial investment: 1,000,000 EUR

Distribution Policy The unit class is non-distributing.

Intended retail investor

This fund may be suitable for you who intend to keep your investment for at least 5 year(s), and who understands that the money invested in the fund can both increase and decrease in value. It is therefore not certain that you will get back all the invested capital. In order to invest in the fund, it is not required that you have any special prior knowledge or experience of mutual funds or financial markets. This share class is intended for institutional investors.

What are the risks and what could I get in return?

Risk indicators

1	2	3	**4**	5	6	7

Lower risk **Higher risk**

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 4 out of 7, which is a medium risk class. This means that the fund has a medium risk of increases and decreases in the share value. The indicator primarily reflects the increases and decreases of the asset classes in which the fund has invested.

Be aware of currency risk if you invest in a share class denominated in a currency that is different from the official currency of the country where the share class is being marketed. You will then receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include protection against market risk, which means that you may lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product or a suitable benchmark over the last 10 year(s). Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment in the product/a suitable benchmark between 29 September 2017 and 30 September 2022.

Moderate: this type of scenario occurred for an investment in the product/a suitable benchmark between 31 January 2017 and 31 January 2022.

Favourable: this type of scenario occurred for an investment in the product/a suitable benchmark between 30 October 2020 and 31 October 2025.

What happens if SEB Funds AB is unable to pay out?

According to law, the fund's assets may not be stored by the management company. Instead, each fund must have a specific depositary that takes care of the safekeeping of the fund's assets. In the unlikely event that the management company goes bankrupt, the management of the fund is taken over by the depositary. There is no other arranged compensation or guarantee scheme for investors in the fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is included as part of another product, e.g. unit linked insurance, there may be other costs for that product.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the product's recommended holding period we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	**15 EUR**	**84 EUR**
Annual cost impact*	**0.1%**	**0.2%**

*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.6% before costs and 7.4% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee, but the person selling you the product may do so.	**0 EUR**
Exit costs	We do not charge an exit fee, but the person selling you the product may do so.	**0 EUR**
Ongoing costs taken each year		
Management fees and other administrative or operating costs	**0.11%** of the value of your investment per year. This is an estimate based on actual costs over the last year.	**11 EUR**
Transaction costs	**0.04%** of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	**4 EUR**
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	**0 EUR**

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

The fund has no requirement for a minimum holding period, but since it invests in equities, it is suitable for a medium to long-term investment horizon. You should be prepared to hold your investment in the fund for at least 5 year(s). You normally have the opportunity to sell your fund units all bank business days in Sweden without any extra fee.

How can I complain?

If you want to make a complaint about the fund, the management company or the person who has given you advice on or sold the fund to you, you can do so via https://seb.se/privat/om-du-inte-ar-nojd or write to kundrelationer@seb.se alternatively via post to SEB [Kundrelationer bankärenden, 106 40 Stockholm].
