Outlook (2026-08): new ro-ro and container lines, Muuga industrial park, Old City Harbour real estate tender	New - assess in the next review[14]	**In progress**

Investor information & conclusions

- **Instrument held:** shares (TSM1T, Nasdaq Tallinn). No bonds; borrowing is via loans (EUR 173.4m, of which 93.1m current)[4].
- **Dividend base:** dividends are based on prior-year profit; 6M profit EUR 6.0m (10.3m) - if the trend continues, the base for the 2027 dividend will be lower[4,3].
- **EUR 93.1m of loans are current:** watch refinancing[4].
- **Conclusion:** strong balance sheet and stable debt, but 2026 profitability is declining due to fuel and repair costs and lower liquid bulk. Watch: 9M report, the ferry service contract, the outcome of the court case.

ESG report

Exclusionary screening (companies)

☑ Yes, the company is not involved in excluded sectors: controversial and nuclear weapons, tobacco, gambling and restricted sectors in fossil fuel

Evidence: Port operator, ferry services, icebreaker, real estate - no weapons, tobacco, gambling, coal or oil exploration[4]. Handles liquid bulk (oil products), volumes declining (−33.8% in 6M)[4].

☐ Yes, the company does not have red flag/signal related to controversies based on UN Global Compact, OECD Guidelines for Multinational Enterprises or any other relevant principles/standards

Evidence: Needs review. Former executives' bribery case (from 2015): acquitted on limitation grounds 2024-06-27, appealed by prosecution and defence; later ruling not found. The company is the injured party, not a defendant[7,8].

☐ Yes, the company is not in the list of sanctions (add a screenshot)

Evidence: Needs review. Checked by the analyst with internal tools (add a screenshot). Controlled by the Republic of Estonia (67.03%)[6].

☐ Yes, issues were not identified from adverse media checks (add a screenshot)

Evidence: Needs review. Found (EE media): the bribery case[7,8]. The automatic news scan (30 days) found no newer adverse news. Analyst confirms and adds a screenshot.

In case any red flags, risks, unclarities were identified then additional checks (sanctions screening and adverse media checks) on the company's Ultimate Beneficial Owners and/or senior management shall be performed.

Additional comments:

ESG integration and positive screening (positive answers imply higher allocation)

☑ Yes, the company is promoting environmental or social characteristics (activities, ESG policy, good ESG rating, etc)

Evidence: Voluntary 2025 sustainability report following CSRD/ESRS principles[15]; target of 90% renewable energy for own use[16].

☑ Yes, the activities of the company or it's strategy is aligned with the taxonomy and/or Paris agreement targets (e.g. net zero commitment)

Evidence: Climate-neutral operations by 2050; Scope 1+2 −55% by 2030 (vs 2019); 2025: 19,261 t CO2e (−41.8%, calculated by the tool)[13]. EU Taxonomy share not found.

☐ Yes, the company does not have yellow flag/signal related to controversies based on UN Global Compact or any other relevant principles/standards

Evidence: Needs review. Yellow flag - the unresolved bribery case of former executives[7,8].

☐ Yes, the company fulfills the expectations from SEB thematic and sector policies

Evidence: Needs review. Applicable: the SEB Investments policy[17] and the Shipping policy, because the ferry segment is 31.4% of 6M 2026 revenue, above the 15% threshold (calculated by the tool)[12,18]. The Transportation policy does not apply (road, rail and air only)[19]. **Met:** no governance or international-norm breach by the company found (it is the injured party in the former executives' case)[7]; annual sustainability report with climate data[15]; climate neutrality by 2050 and a plan to move ferries to alternative fuels or electrification, in line with the decarbonisation-plan expectation[20,21]. **Not found in public reports:** Shipping requirements such as SEEMP, EEXI/CII compliance, vessel emission-intensity disclosure, responsible ship recycling and classification[22]; human rights due diligence, whistleblowing channel and anti-corruption policy expected by SEB[21,23]. **Open:** liquid bulk (oil products) handling; if fossil-related revenue is above 5%, the Fossil Fuels policy also applies[24,25]. Analyst to check TS Laevad vessel documents.

Additional comments:

Engagement

☐ Is there a need for pro-active engagement with the company?

Evidence: Needs review. Suggested topics: ferry fuel emissions and costs, pathway to −55% by 2030, anti-corruption controls after the case.

Additional comments:

Indicators

☐ Yes, the indicators of the company support the targets of sustainability and PAI indicators followed by the Fund

Evidence: Needs review. Available PAI data: Scope 1+2 emissions 19,261 t CO2e (2025)[26]. Comparison with the Fund's targets - analyst.

Additional comments:

Conclusion: No excluded sectors; positives are emission targets and sustainability reporting. Review the outcome of the bribery case and fit with SEB shipping / transportation policies.

SEB policies applied: Policy on Sustainability Considerations in Investments (SEB AB); Shipping sector policy; Environmental Policy on Climate, Nature and Water (thematic); Social and Human Rights Policy (thematic); Governance expectations in sector policies (anti-corruption, tax, reporting)
