Investor information & conclusions

- **Instruments held:** shares (IGN1L) and three bonds (2027, 2028, 2030). The bonds are senior unsecured and carry the issuer rating of BBB+ (S&P)[7].
- **For bondholders:** leverage (3.49x) is within the strategic 3-4x range and ratings are stable; FFO / net debt (22.2%) is still below the ≥23% target. Investment is mostly in regulated networks[26,6,1].
- **XS1646530565:** the 2026-10-19 tender offer requires a decision (tender or hold to 2027-07-14). Terms and deadline are in the issuer's Tender Offer Launch Announcement[7].
- **For shareholders:** H1 dividend EUR 0.704 (+3.1%), while adjusted profit is declining (−20.8%). Free cash flow EUR 5.3m - investment and dividends are partly debt-funded[13,4].
- **Conclusion:** financial position broadly unchanged versus year-end 2025; credit metrics within strategic limits, ratings stable. Watch: 9M report (2026-11-11), wind and price effects on Green Capacities, FFO / net debt returning to ≥23%.

ESG report

Exclusionary screening (companies)

☑ Yes, the company is not involved in excluded sectors: controversial and nuclear weapons, tobacco, gambling and restricted sectors in fossil fuel

Evidence: No weapons, tobacco or gambling. No coal generation and no oil & gas exploration[15]. Owns the gas-fired Elektrėnai complex (reserve capacity) and supplies gas - not restricted by the SEB fossil fuel policy (restricts coal >5% of revenue and new exploration).

☑ Yes, the company does not have red flag/signal related to controversies based on UN Global Compact, OECD Guidelines for Multinational Enterprises or any other relevant principles/standards

Evidence: No red flags (UNGC / OECD breaches) found in public sources and the news scan (2026-10-22). Ignitis states it upholds the UN Global Compact principles[15].

☐ Yes, the company is not in the list of sanctions (add a screenshot)

Evidence: Needs review. Checked by the analyst with internal tools (add a screenshot).

☐ Yes, issues were not identified from adverse media checks (add a screenshot)

Evidence: Needs review. The automatic news scan (LT, LV, EE, EN; 30 days) found no adverse headlines. Analyst confirms and adds a screenshot.

In case any red flags, risks, unclarities were identified then additional checks (sanctions screening and adverse media checks) on the company's Ultimate Beneficial Owners and/or senior management shall be performed.

Additional comments:

ESG integration and positive screening (positive answers imply higher allocation)

☑ Yes, the company is promoting environmental or social characteristics (activities, ESG policy, good ESG rating, etc)

Evidence: Core activities are green generation (2.1 GW installed, 0.6 GW under construction) and power networks[9]; green bonds and a new EU Green Bond Standard (EuGB) bond[8].

☑ Yes, the activities of the company or it's strategy is aligned with the taxonomy and/or Paris agreement targets (e.g. net zero commitment)

Evidence: EU Taxonomy-aligned capex 84.7% in 2025[15]. SBTi-validated targets in line with 1.5°C; net zero by 2050 or sooner[27].

☐ Yes, the company does not have yellow flag/signal related to controversies based on UN Global Compact or any other relevant principles/standards

Evidence: Needs review. Possible yellow flag: a contractor employee was fatally injured in February 2026[20]. Scope 1 emissions rose 54.7% in 2025 due to higher gas generation[15].

☐ Yes, the company fulfills the expectations from SEB thematic and sector policies

Evidence: Needs review. Fossil fuel policy - met (no coal, no oil & gas exploration). Electricity & renewables, climate and human rights policy content could not be read automatically (SEB PDFs block automated reading) - manual check needed.

Additional comments:

Engagement

☐ Is there a need for pro-active engagement with the company?

Evidence: No need identified. Possible topics: share of gas generation and Scope 1 growth, contractor safety.

Additional comments:

Indicators

☐ Yes, the indicators of the company support the targets of sustainability and PAI indicators followed by the Fund

Evidence: Needs review. Available PAI data: total GHG emissions 4.49m t CO2e (+10.1%)[15]; carbon intensity (Scope 1+2) 214 g CO2e/kWh in Q1 2026 (−12.8%)[20]; Taxonomy-aligned capex 84.7%[15]. Comparison with the Fund's targets - analyst.

Additional comments:

Conclusion: Exclusionary screening without findings (sanctions and media to be confirmed by the analyst). Positives: high Taxonomy-aligned capex, SBTi targets. Watch the share of gas generation and safety.

SEB policies applied: Fossil Fuels (coal, oil & gas, peat) sector policy; Electricity & Renewable Energy sector policy; Environmental Policy on Climate, Nature and Water; Social and Human Rights Policy; Anti-corruption, Code of Conduct, Tax
